12. Financial Report _____ (16)

About Us - Every initiative will have some strong objective. Five friends with the same wavelength came together to create a quality impact in the low-income community. After a lot of research and discussion with experts in the similar field, we set a mission to build a self - reliant community by providing necessary business-oriented training to the low-income community.

Chenthil Kumar S
Co – Founder, Proud Indian

When I was a child I use to hear a famous quote of Mahatma Gandhi from my mother, the quote is "There are two days in the year that we cannot do anything, yesterday and tomorrow". While grow older, this quote helped me to start creating an impact in the society and motivated me to start our own project for urban/rural low-income community. If there are no huddles in the war field, there will not be any interesting. Every day have to plan lot to create an impact in social sector. Team Proud Indian and our optimist are very interest to take such challenge to improve our community to provide a sustainable development in the community.

Sarjun H
Co – Founder, Proud Indian

My father by living a simple life teaches me that, in the journey of life we might not have the opportunity to travel with everyone, but try to create good impressions with everyone by doing good for them or seeking good in them!

The energy your putting in to help others, will help you to know more about yourself. People with such positively energetic attitude are called as Optimists
