Differences between the actual results and estimates are recognised in the year in which they become known or materialises.

The financial statements have been prepared on an accrual basis and under the historical cost convention.

The preparation of financial statements in conformity with generally accepted accounting principles requires management of the Trust to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting year. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from those estimates. Significant estimates used by management in the preparation of these financial statements include the estimates of the economic useful lives of the fixed assets, provision for employee benefits and provision for doubtful debts and advances.

c. Impairment of assets

The Trust assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Trust estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the profit and loss account. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of depreciated historical cost.

d. Employee benefits

The Trust during the year had no full time employee. Accordingly, Employee benefits including provident fund, employee state insurance scheme, gratuity fund etc are not applicable.

e. Operating leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating lease. Operating lease payments are recognised as an expense in the profit and loss account on a straight line basis.

f. Income taxes
